Major Employers	105
Operating Indicators by Function	105

To: President Samuel Dickman
Village Board of Trustees
Citizens of the Village of Bayside, Wisconsin:

The Comprehensive Annual Financial Report (CAFR) for the Village of Bayside, Wisconsin, for the fiscal year ended December 31, 2013, is hereby submitted. The responsibility for the accuracy of the data and the completeness and fairness of the presentation, including all disclosures, rests with the management of the Village. This report consists of management's representations concerning the finances of the Village. Consequently, management assumes full responsibility for the completeness and reliability of all of the information presented in this report.

To provide a reasonable basis for making these representations, management of the Village of Bayside has established a comprehensive internal control framework that is designed both to protect the government's assets from loss, theft, or misuse and to compile sufficient reliable information for the preparation of the Village of Bayside's financial statements in conformity with generally accepted accounting principles (GAAP). Because the cost of internal controls should not out way their benefits, the Village of Bayside's comprehensive framework of internal controls has been designed to provide reasonable rather than absolute assurance that the financial statements will be free from material misstatements. As management, we assert that, to the best of our knowledge and belief, this financial report is complete and reliable in all material respects.

Baker Tilly Virchow Krause, LLP, a firm of certified public accountants and consultants, has audited the Village's financial statements. The goal of the independent audit was to provide reasonable assurance that the financial statements of the Village of Bayside for the fiscal year ended December 31, 2013, are free of material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation. The independent auditor concluded, based upon the audit, that there was a reasonable basis for rendering an unmodified opinion that the Village of Bayside's financial statements for the fiscal year ending December 31, 2013, are fairly presented in conformity with GAAP. The independent auditor's report is presented as the first component of the financial section of this report.

Generally accepted accounting principles require that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in a form of the Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The Village's MD&A can be found immediately following the report of the independent auditors.

This report includes all funds of the Village. It includes all governmental organizations activities for with the Village Board of Trustees is financially accountable. The Village provides the full range of municipal services normally associated with a municipality including general administration, police and fire protection, sanitary sewer services, the construction and maintenance of streets and related infrastructure, recreational activities and community events.

COMMUNITY PROFILE

Located along the shores of beautiful Lake Michigan, and only minutes from major transportation routes and downtown Milwaukee, Bayside offers spectacular views, accessibility, and small town atmosphere without giving up the perks of the city. The Village of Bayside is predominately residential, with 4,380 citizens spread out over 2.39 square miles in both Milwaukee and Ozaukee Counties.

Included as one of seven communities making up the "North Shore," Bayside boasts strong school districts, a safe environment for residents, and service delivery that is second to none. Situated along I-43, Bayside brings access which makes some of the premier Wisconsin destinations just a short drive away.

Figure 1 - Lion's Gate, located at Lake Drive and Fairy Chasm Road

Bayside is infused with great history that dates back to the Potawatomi Native Indian tribes that lived, hunted, and fished the area until the mid 1800's. The area features four historically designated structures, including the Lion's Gates, which were built in 1911 from stones pulled from Lake Michigan. The gates reflect the Usinger and Donges estates, two representatives of the agricultural residents who inhabited the area at the turn of the century. In the summer of 2008, the historic gates were rebuilt to help ensure another 100 years of stability.

While mainly residential, Bayside's location gives it a rural, nature feel. The Schlitz-Audubon Nature Center, positioned in the Southeast corner of the Village, offers an environmental haven for wildlife to live and visitors to view. In addition, the natural layout of the area provides spectacular foliage along with many beautiful ravines.

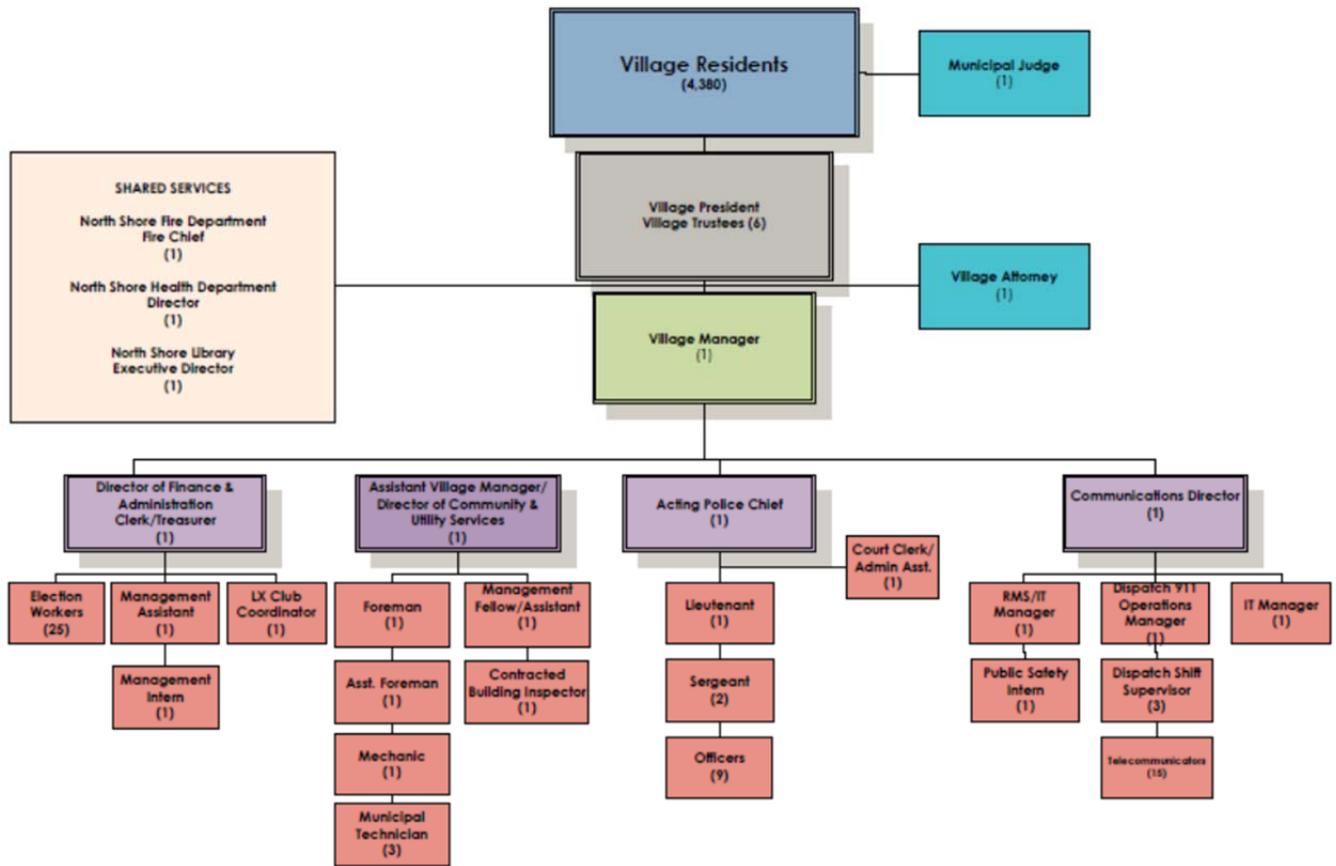

Figure 2 – Village Municipal Building, Regent Road

The first village office was located in the original wing of Bayside School. In 1955 the first municipal building, usually called the Village Hall, was constructed. It was torn down in 1998 and a new Village Hall and Police Department was built in 1999. You will find this building at 9075 North Regent Road, just north of the railroad crossing. In 2011 the Communication Center was added to the building.

GOVERNMENT PROFILE

The Village Manager form of government was adopted in 1956, and recognized by the International City/County Management Association (ICMA) in 2007. The Village Manager, an appointed position, oversees the daily operation of the various Village departments. The Village Board consists of the Village President and six Trustees elected at-large to three-year part time terms.

The table below illustrates the organizational chart:

The Police Department consists of 13 full-time sworn officers who provide around the clock police protection. Bayside also has a 24 hour dispatch center, providing service to Bayside, Fox Point, Brown Deer, Glendale, Shorewood, Whitefish Bay, North Shore Fire Department and River Hills. The Municipal Court also provides service to the Village of River Hills. The Village is served by the 103 full-time and two part-time members North Shore Fire Department, which serves the seven North Shore communities, to which Bayside is home to Station #5.

The Department of Community & Utility Services is responsible for rubbish and recycling, street maintenance, snow removal, park maintenance, and overall Village maintenance needs.

Health related services for Village residents are available at the North Shore Health Department. The closest library is the North Shore Library located at 6800 N. Port Washington Road in Glendale. Bayside and Fox Point have a joint LX Club for senior citizens at the Dunwood School, 215 W. Dunwood Road, Fox Point.

The Village’s sewer system is connected to the Milwaukee Metropolitan Sewerage District. Water service in the Pelham Heath area, west of Port Washington Road from Brown Deer Road to Laramie Lane, and the North Shore East Subdivision is provided by the City of Mequon. Many homes have private wells.

The Village has adopted four Long-term Strategic Values for Outcomes that serve as the foundation for service to the residents of Bayside. They include:

Fiscal Integrity:

- Provide strong current and future financial stability.

Service Excellence:

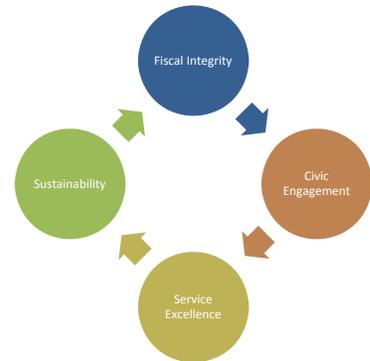

- Provide solution-based innovative services.

Citizen Engagement:

- Promote public spaces, community values and transparent communications.

Sustainability:

- Preserve and promote the Village's resources.

All four areas of emphasis are naturally linked; quality services must also be delivered in a cost-effective manner, and services often can't be delivered satisfactorily without significant, sustained communications efforts, all of which are sought to be done in an environmentally friendly manner.

ECONOMIC CONDITION AND OUTLOOK

The Village is ideally situated in the northeast corner of Milwaukee County with a small portion of the Village falling in Ozaukee County along the shores of Lake Michigan, only minutes from major transportation routes and ten miles from downtown Milwaukee.

The Village's property base is approximately 89% residential and 11% commercial with no industrial properties. The Village is nearly fully developed. The opportunity for future commercial redevelopment is limited to isolated areas in the Village.

Recent unemployment rates have gone down in the Milwaukee metropolitan area from 6.9% at the end of December 2012 to 6.2% at the end of 2013. The Ozaukee County unemployment rate is at 4.5%. The Village's western corridor currently serves as the main area for business and office space however; the majority of the Village's tax base is generated from the residential base. The Audubon Shopping Center is home to thirteen businesses, ranging from restaurants to clothing. The Village has attracted new commercial and residential development over the last decade. Resourceful planning for the future is needed to continue attracting high quality private investment.

ACCOUNTING AND FINANCIAL POLICIES

The Village has adopted formal financial policies related to general fund balance, capital budgets, debt administration, and overall budget development to provide guidance for financial management of the Village. The investment policy directs staff to invest funds which are not immediately needed for payment of obligation in investment activities which provide for safety, liquidity, and yield in accordance with applicable State Statutes. These funds are invested in U.S. Treasury Obligations and Government Agency Securities, Certificates of Deposit, Local Government Investment Pool, Corporate Bonds, Operating Bank Account and Money Market Funds. The Village maintains a credit rating of Aa2 from Moody's Investor Service.

AWARDS AND ACKNOWLEDGEMENTS

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the Village of Bayside for its comprehensive annual financial report (CAFR) for the fiscal year ended December 31, 2010, 2011 and 2012. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized comprehensive annual financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current comprehensive annual financial report continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

The Village of Bayside also participates in the Government Finance Officers Association of the United States and Canada (GFOA) Distinguished Budget Presentation Award Program and received the award for the annual budget for the fiscal year beginning January 1, 2008. This is the sixth year in a row the Village has received the award.

The preparation of this report on a timely basis could not have been accomplished without the efficient and dedicated services of the administrative services department, Assistant Village Manager, and the valued assistance from our auditors. We would like to thank the Village President and the Village Board for their leadership and support in planning and conducting the financial operations of the Village in a responsible, forward thinking manner.

Respectfully submitted,

Andrew Pederson

FINANCIAL SECTION

INDEPENDENT AUDITORS' REPORT

To the Village Board
Village of Bayside
Bayside, Wisconsin

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Village of Bayside, Wisconsin, as of and for the year ended December 31, 2013, and the related notes to the financial statements, which collectively comprise the Village of Bayside's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Village of Bayside's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances but not for the purpose of expressing an opinion on the effectiveness of the Village of Bayside's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

To the Village Board
Village of Bayside

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Village of Bayside, Wisconsin, as of December 31, 2013 and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matters

As discussed in Note I, the Village of Bayside adopted the provisions of GASB Statement No. 61, *The Financial Reporting Entity: Omnibus - an Amendment of GASB Statements No. 14 and No. 34*, effective January 1, 2013. Our opinions are not modified with respect to this matter.

As discussed in Note I, the Village of Bayside adopted the provisions of GASB Statement No. 65, *Items Previously Reported as Assets and Liabilities*, effective January 1, 2013. Our opinions are not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information and the schedule of funding progress as listed in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Village of Bayside's basic financial statements. The combining and individual fund financial statements and schedules as listed in the table of contents are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual fund financial statements and schedules are fairly stated in all material respects, in relation to the basic financial statements as a whole.

To the Village Board
Village of Bayside

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Village of Bayside's basic financial statements. The introductory and statistical sections are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information has not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

Baker Tilly Virchow Krause, LLP

Milwaukee, Wisconsin
June 17, 2014

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED DECEMBER 31, 2013 (Unaudited)

As management of the Village of Bayside, we offer readers of the Village of Bayside financial statements this narrative overview and analysis of the financial activities of the Village of Bayside for the fiscal year ended December 31, 2013. We encourage readers to consider the information presented here in conjunction with the basic financial statements and supplementary information contained elsewhere in this report.

FINANCIAL HIGHLIGHTS

When revenues exceed expenses, the result is an increase in net position. When expenses exceed revenues, the result is a decrease in net position. You can think of this relationship between revenues and expenses as the Village's operating results. One can think of the Village's net position, as measured in the Statement of Net Position, as one way to measure the Village's financial health, or financial position. Over time, increases and decreases in the Village's net position, as measured in the Statement of Activities, are one indicator of whether its financial health is improving or deteriorating. However, the Village's goal is to provide services that improve the quality of life for our residents, not to generate profits as companies do. For this reason, you will need to consider many other non-financial factors, such as the condition of our infrastructure, in assessing the overall health of our Village.

- The assets and deferred outflows of resources of the Village of Bayside exceeded its liabilities and deferred inflows of resources as of December 31, 2013, by \$11,390,242 (*net position*).
- As of December 31, 2013, the Village of Bayside's governmental funds reported combined ending fund balances of \$1,605,074, a decrease of \$245,171 in comparison with the prior year's balance of \$1,850,245. The decrease in fund balance is due to a budgeted use of fund balance and a repayment of leasing funds. \$854,445 is *available for spending* at the government's discretion (*unassigned fund balance*).
- As of December 31, 2013, assigned fund balance for the general fund was \$371,509, of which \$145,000 was assigned for subsequent year budget appropriations, \$20,194 for health reimbursement accounts, and \$206,315 for future retirement costs.
- The Village of Bayside paid off \$771,444 in outstanding general obligation long-term debt in 2013.

OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis are intended to serve as an introduction to the Village of Bayside's basic financial statements. The Village of Bayside's basic financial statements comprise of three components: 1) government-wide financial statement, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-wide financial statements

The *government-wide financial statements* are designed to provide readers with a broad overview of the Village of Bayside's finances, in a manner similar to a private-sector business.

The *statement of net position* presents information on all of the Village of Bayside's assets and deferred outflow of resources and liabilities and deferred inflow of resources, with the difference reported as *net position*. Over time, increases and decreases in net position may serve as a useful indicator of whether the financial position of the Village of Bayside is improving or deteriorating.

The *statement of activities* presents information showing how the government's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, *regardless of the timing of related cash flows*. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both the government-wide financial statements distinguish functions of the Village of Bayside that are principally supported by taxes and intergovernmental revenues (*governmental activities*) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (*business-type activities*). The governmental activities of the Village of Bayside include general government, public safety, public works, health and human services, culture, recreation and education, and conservation and development. The business-type activities of the Village of Bayside include the Bayside Sewer Utility.

The government-wide financial statements can be found on pages 21 - 23 of this report.

Fund financial statements

A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Village of Bayside, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the Village of Bayside can be divided into three categories: governmental funds, proprietary funds and fiduciary funds.

Governmental Funds

Governmental funds are used to account for essentially the same functions reported as *governmental activities* in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on *near-term inflows and outflows of spendable resources*, as well as on *balances of spendable resources* available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements. The basic governmental fund financial statements can be found on pages 24 - 29 of this report.

Because the focus of the governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. The governmental fund balance sheet and reconciliation of the statement of revenues, expenditures, and changes in fund balances of governmental funds to the statement of activities provide a reconciliation to facilitate this comparison between *governmental funds* and *governmental activities*.

The Village of Bayside maintains seven individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the general, consolidated services, consolidated dispatch, debt service, and capital projects funds, all of which are major funds and combined for the remaining non-major funds of the Village. Individual fund data for each of these non-major governmental funds is provided in the form of *combining statements* elsewhere in this report.

Proprietary Funds

The Village of Bayside maintains the sewer utility as a proprietary fund. Enterprise Funds are used to report the same functions presented as *business-type activities* in the government-wide financial statement.

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The basic proprietary fund financial statements can be found on pages 30 – 34 of this report.

Fiduciary Funds

Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are *not* reflected in the government-wide financial statement because the resources of those funds are *not* available to support the Village of Bayside's own programs. Fiduciary funds maintained by the Village of Bayside are: the Tax Collection Fund which records the tax roll and tax collection for other taxing jurisdictions within the Village of Bayside and the Special Assessments B Bonds Fund. The basic fiduciary fund financial statements can be found on page 35 of this report.

Notes to the Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 36 – 71 of this report.

Other Information

The required supplementary information is reported on pages 72 – 76. The combining statements referred to earlier in connection with the non-major governmental funds are presented immediately following the notes to the financial statements. Combining statements can be found on pages 77 – 78 of this report.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

For the governmental activities, all infrastructure assets are included within this report. The capital assets (e.g., land, buildings, machinery, infrastructure, and equipment, net of accumulated depreciation) of the governmental activities of the Village of Bayside less outstanding debt (net of unspent proceeds) equals \$9,718,887. The majority of the outstanding debt of the governmental activities funds was incurred for the installation of infrastructure. 85 percent of the Village's total net position consist of the Village's net position that are invested in capital assets, net of related debt.

The Village of Bayside uses these capital assets to provide services to citizens; consequently, these assets are *not* available for future spending. Although the Village of Bayside's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

VILLAGE OF BAYSIDE'S NET POSITION

	Governmental Activities		Business-type Activities		Totals	
	2013	2012	2013	2012	2013	2012
Current and other assets	\$ 8,817,201	\$ 9,816,266	\$ 1,039,533	\$ 1,176,295	\$ 9,856,734	\$ 10,992,561

Public safety activities accounts for approximately 63.9 percent of the total expenses within the governmental funds of the Village of Bayside. Public works and general government services account for approximately 17.7 and 9.8 percent, respectively, of the total expenses for 2013.

As identified above and on the chart on the next page, property taxes are the largest revenue source for governmental activities accounting for approximately 51.6 percent of total revenues. Charges for services, operating grants and contributions, capital grants and contributions, other taxes, and general revenues provided approximately 8.9 percent, .9 percent, 4.2 percent, .6 percent, and 33.8 percent respectively.

Business-type activities

The current Sewer rate includes user charges passed on from the Milwaukee Metropolitan Sewerage District for plant operations; and Village charges to meet operations and debt coverage requirements.

FINANCIAL ANALYSIS OF THE OF THE GOVERNMENT’S FUNDS

As noted earlier, the Village of Bayside uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds

The focus of the Village of Bayside’s *governmental funds* is to provide information on near-term inflows, outflows, and balances of *spendable* resources. Such information is useful in assessing the Village of Bayside’s financing requirements. In particular, *unreserved fund balance* may serve as a useful measure of a government’s net resources available for spending at the end of the fiscal year.

As of December 31, 2013, the Village of Bayside’s governmental funds reported combined ending fund balances of \$1,605,074, a decrease of \$245,171 in comparison with the prior year. Approximately 53 percent of this total amount, \$837,195, constitutes *unassigned fund balance*, which is available for spending at the government’s discretion. The remainder of fund balance of \$767,879 is not available for new spending because it is either non-spendable (prepaid items and non-current receivables) or has been restricted, committed, or assigned for specific purpose.

General Fund

The General Fund is the chief operating fund of the Village of Bayside. As of December 31, 2013, the total fund balance of the general fund was \$1,148,871 of which \$775,001 was unassigned. This unassigned fund balance represents approximately 22 percent of total general fund expenditures. Total fund balance increased by \$169,883 due to an unanticipated increase in permit revenue.

Consolidated Services

The Consolidated Services Fund accounts for resources legally restricted to supporting expenditures for the North Shore Fire Department and North Shore Library. During 2013 fund balance decreased by \$51,425 due to a budgeted transfer.

Consolidated Dispatch

The Consolidated Dispatch Fund accounts for resources legally restricted to supporting expenditures for jointly operated dispatch services. During 2013 fund balance increased by \$60,330.

Debt Service

The Debt Service Fund accounts for resources (primarily tax and intergovernmental revenue) used to make payments on long-term debt. During 2013 \$771,444 of long-term debt was paid off.

GENERAL FUND BUDGETARY HIGHLIGHTS

Fund balance of the General Fund increased by \$169,883 in fiscal year 2013. Actual expenditures were less than the final budgeted expenditures by \$156,737. Actual revenues exceeded budgeted revenues in the General Fund by \$156,258.

The increase in revenues was primarily associated with an increase in permits and investment income.

The total budget for the General Fund was changed during the year. An amendment was made to decrease general government and public safety and increase public works and culture, recreation and education, transfers in and out, as well as to increase intergovernmental charges for services.

Proprietary funds

The Village of Bayside's proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail.

Total net position of the Sewer utility at the end of the year amounted to \$2,005,873. Unrestricted net position was \$304,957 at year-end. Other factors concerning the finances of this fund have already been addressed in the discussion of the Village of Bayside's business-type activities.

CAPITAL ASSET AND DEBT ADMINISTRATION

Capital assets

The Village of Bayside's investment in capital assets for its governmental and business-type activities as of December 31, 2013, amounts to \$ 18,036,830 net of accumulated depreciation. This investment in capital assets includes land, buildings and building improvements, improvements other than buildings, equipment, and infrastructure. The village implemented the infrastructure component of Governmental Accounting Standards Board (GASB) Statement No. 34 for the year ended December 31, 2004.

Additional information on the Village of Bayside's capital assets can be found in Note III D. on pages 54 and 55.

Long-term debt

At the end of the current fiscal year, the Village of Bayside has total general obligation debt outstanding of \$8,978,235 entirely backed by the full faith and credit of the government.

State statutes limit the amount of general obligation debt a governmental entity may issue to 5 percent of its total equalized valuation. The current debt limitation for the Village of Bayside is \$28,462,040, which significantly exceeds the Village of Bayside's current outstanding general obligation debt.

Village of Bayside's Outstanding Debt

As noted above, \$1,590,000 of the Village's outstanding debt at December 31, 2013, relates to North Shore Fire Department. Additional information of the Village of Bayside's long-term debt can be found in Note III F. on pages 57 through 61.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGET AND RATES

- The unemployment rate as of December 31, 2013, for the Milwaukee metropolitan area, which includes the Village of Bayside was 6.2 percent. This compares with an unemployment rate of 6.3 percent for the State of Wisconsin and a national unemployment rate of 6.7 percent.
- During 2006, the Village Board implemented a revised set of Financial Policies and Procedures to establish additional financial oversight and protocol as well as guidelines for tax rate stabilization and long term Village expenditures.
 - Specifically, the Village created a levy stabilization fund, whereby all cell tower revenue would be deposit into this designated account. 90 percent of the amount over 20 percent fund balance would be divided between Public Works capital reserve, road reserve, Police capital reserve and Administrative Services Capital reserve accounts and the remaining 10 percent would stay in the general fund.
- The Village, in 2007, implemented a long term Capital Improvements Program to allow for better planning of large and long term expenditures on equipment and infrastructure.
- The Village of Bayside's budget once again qualified for the State Expenditure Restraint Shared Revenue payment.
- 2009 marked the implementation of the Stormwater Management Utility to continue to manage and strengthen the Village's effort on stormwater management and runoff mitigation.
- Work continues on the integration of employee benefits for non-represented employees result of State law changes.
- The Village's long term GASB OPEB liability was addressed with the implementation of a paid time off system in 2012.
- Bayside has received the Government Finance Officers Association of the United States and Canada (GFOA) Distinguished Budget Presentation Award since 2008.
- The 2013 housing market was up 6.6% from 2012 which was reflected in the number of residential code compliances processed. Revenue generated from code compliances increased again from \$22,442.95 at the end of 2012 to only \$24,160.06 at the end of 2013.
- The GFOA has also awarded a Certificate of Achievement for Excellence in Financial Reporting to the Village of Bayside for its Comprehensive Annual Financial Report (CAFR) starting in 2010. The CAFR further enhances our financial accountability and transparency, providing a concise report of the last ten fiscal years.
- The Village maintains a credit rating of Aa2 from Moody's Investor Service.
- The Consolidated Dispatch Communication Center, serving to Bayside, Fox Point, Brown Deer, Glendale, Shorewood, Whitefish Bay, North Shore Fire Department and River Hills opened in May of 2012. This operations increases both revenues and expenditures, provides diversity to our revenue base from our overall expenditure outlay.
- The Public Safety Records Management System for Bayside, Fox Point, Brown Deer, Glendale, Shorewood, Whitefish Bay, and River Hills consolidation was completed in 2013.

- In 2005 over 70% of the Villages revenues were derived from taxes compared to 2013 where only 51.6% of the overall revenues come from taxes.
- In future years the Village will continue to see a reduction in State of Wisconsin shared revenues and tax levy limits as the State legislature tries to balance the State budget and answer constituents concerns about high property taxes.

REQUESTS FOR INFORMATION

This financial report is designed to provide a general overview of the Village of Bayside's finances for all those with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for additional information should be addressed to the Village of Bayside, Attn.: Clerk/Treasurer, 9075 N. Regent Road, Bayside, WI 53217.

General information relating to the Village of Bayside, Wisconsin, can be found at the Village's website, <http://www.bayside-wi.gov>.

VILLAGE OF BAYSIDE

RECONCILIATION OF THE BALANCE SHEET OF GOVERNMENTAL FUNDS TO THE STATEMENT OF NET POSITION As of December 31, 2013

Total Fund Balances - Governmental Funds \$ 1,605,074

Amounts reported for governmental activities in the statement of net position are different because:

Capital assets used in governmental funds are not financial resources and, therefore, are not reported in the funds. See Note III. D. 14,076,762

Some receivables that are not currently available are reported as unavailable revenues in the fund financial statements but are recognized as revenue when earned in the government-wide statements. 2,090,000

Some liabilities, including long-term debt, are not due and payable in the current period and therefore, are not reported in the funds.

Bonds and notes payable	(7,530,177)
Compensated absences	(114,092)
Accrued interest	(80,427)
Unamortized debt discount	(42,594)
Unamortized loss on refunding	90,042
Capital leases	(604,542)
Net OPEB obligation	<u>(105,677)</u>

VILLAGE OF BAYSIDE

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES For the Year Ended December 31, 2013

Net change in fund balances - total governmental funds	\$	(245,171)
--	----	-----------

Amounts reported for governmental activities in the statement of net position are different because:

Governmental funds report capital outlays as expenditures. However, in the statement of net position the cost of these assets is capitalized and they are depreciated over their estimated useful lives and reported as depreciation expense in the statement of activities.

Capital outlay is reported as an expenditure in the fund financial statements but is capitalized in the government-wide financial statements		1,198,057
Some items reported as capital outlay were not capitalized		(115,515)
Depreciation is reported in the government-wide financial statements		(647,684)
Net book value of assets retired		(230,686)

Receivables not currently available are reported as revenue when collected or currently available in the fund financial statements but are recognized as revenue when earned in the government-wide financial statements.

Dispatch service receivable		(6,228)
Payment on loan receivable		(165,000)

Debt issued provides current financial resources to governmental funds, but issuing debt increases long-term liabilities in the statement of net position. Repayment of debt principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net position.

Capital lease issued		(89,772)
Principal repaid		1,121,786

Governmental funds report debt premiums and discounts as other financing sources (uses) or expenditures. However, in the statement of net position, these are reported as other assets or deductions from long-term debt. These are allocated over the period the debt is outstanding in the statement of activities and are reported as interest expense.

Debt issuance costs		(116,157)
Amortization		(16,278)
Debt premium		7,420

Some expenses in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in the governmental funds.

Compensated absences		61,471
Net OPEB obligation		(20,363)
Accrued interest on debt		20,182

CHANGE IN NET POSITION OF GOVERNMENTAL ACTIVITIES	\$	<u>756,062</u>

VILLAGE OF BAYSIDE

NOTES TO FINANCIAL STATEMENTS As of and for the Year Ended December 31, 2013

NOTE I - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting policies of the Village of Bayside, Wisconsin conform to accounting principles generally accepted in the United States of America as applicable to governmental units. The accepted standard-setting body for establishing governmental accounting and financial reporting principles is the Governmental Accounting Standards Board (GASB).

A. REPORTING ENTITY

This report includes all of the funds of the Village. The reporting entity for the Village consists of the primary government and its component unit. Component units are legally separate organizations for which the primary government is financially accountable or other organizations for which the nature and significance of their relationship with the primary government are such that their exclusion would cause the reporting entity's financial statements to be misleading. The primary government is financially accountable if (1) it appoints a voting majority of the organization's governing body and it is able to impose its will on that organization, (2) it appoints a voting majority of the organization's governing body and there is a potential for the organization to provide specific financial benefits to, or impose specific financial burdens on, the primary government, (3) the organization is fiscally dependent on and there is a potential for the organization to provide specific financial benefits to, or impose specific financial burdens on, the primary government. Certain legally separate, tax exempt organizations should also be reported as a component unit if all of the following criteria are met: (1) the economic resources received or held by the separate organization are entirely or almost entirely for the direct benefit of the primary government, its component units, or its constituents; (2) the primary government or its component units, is entitled to, or has the ability to access, a majority of the economic resources received or held by the separate organization; and (3) the economic resources received or held by an individual organization that the primary government, or its component units, is entitled to, or has the ability to otherwise access, are significant to the primary government.

Component units are reported using one of two methods, discrete presentation or blending. Generally, component units should be discretely presented in a separate column in the financial statements. A component unit should be reported as part of the primary government using the blending method if it meets any one of the following criteria: (1) the primary government and the component unit have substantively the same governing body and a financial benefit or burden relationship exists, (2) the primary government and the component unit have substantively the same governing body and management of the primary government has operational responsibility for the component unit, (3) the component unit serves or benefits, exclusively or almost exclusively, the primary government rather than its citizens, or (4) the total debt of the component unit will be paid entirely or almost entirely from resources of the primary government.

VILLAGE OF BAYSIDE

NOTES TO FINANCIAL STATEMENTS As of and for the Year Ended December 31, 2013

NOTE I - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)

A. REPORTING ENTITY (cont.)

Discretely Presented Component Unit

Community Development Authority

The government-wide financial statements include the Community Development Authority ("CDA") as a component unit. The CDA is a legally separate organization. The board of the CDA is appointed by the village board. Wisconsin Statutes provide for circumstances whereby the Village can impose its will on the CDA, and also create a potential financial benefit to or burden on the Village. The Community Development Authority is part of the reporting entity of the Village of Bayside. However, the CDA had no financial transactions during 2013 which are material to these financial statements. Also, the CDA does not own any assets nor is it liable for any debt. Therefore, no financial statements are presented in this report. The CDA does not issue separate financial statements.

B. GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

In November 2010, the GASB issued statement No. 61 - *The Financial Reporting Entity: Omnibus - an amendment of GASB Statements No. 14 and No. 34*. This statement modifies certain requirements for inclusion of component units in the financial reporting entity. This standard was implemented effective January 1, 2013.

In March 2012, the GASB issued statement No. 65 - *Items Previously Reported as Assets and Liabilities*. This statement establishes accounting and financial reporting standards that reclassify, as deferred outflows of resources or deferred inflows of resources, certain items that were previously reported as assets and liabilities and recognizes, as outflows of resources or inflows of resources, certain items that were previously reported as assets and liabilities. This standard was implemented effective January 1, 2013.

Government-Wide Financial Statements

The statement of net position and statement of activities display information about the reporting government as a whole. They include all funds of the reporting entity except for fiduciary funds. The statements distinguish between governmental and business-type activities. Governmental activities generally are financed through taxes, intergovernmental revenues, and other nonexchange revenues. Business-type activities are financed in whole or in part by fees charged to external parties for goods or services. Likewise, the primary government is reported separately from certain legally separate component units for which the primary government is financially accountable.

VILLAGE OF BAYSIDE

NOTES TO FINANCIAL STATEMENTS
As of and for the Year Ended December 31, 2013

NOTE I - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)

B. GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS (cont.)

Government-Wide Financial Statements (cont.)

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. The Village does not allocate indirect expenses to functions in the statement of activities. Program revenues include 1) charges to customers or applicants who purchase, use or directly benefit from goods, services, or privileges provided by a given function or segment, and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not included among program revenues are reported as general revenues. Internally dedicated resources are reported as general revenues rather than as program revenues.

Fund Financial Statements

Financial statements of the reporting entity are organized into funds, each of which is considered to be a separate accounting entity. Each fund is accounted for by providing a separate set of self-balancing accounts, which constitute its assets, deferred outflows of resources, liabilities, deferred inflows of resources, net position/fund equity, revenues, and expenditures/expenses.

Funds are organized as major funds or nonmajor funds within the governmental and proprietary statements. An emphasis is placed on major funds within the governmental and proprietary categories. A fund is considered major if it is the primary operating fund of the Village or meets the following criteria:

- a. Total assets/deferred outflows of resources, liabilities/deferred inflows of resources, revenues, or expenditures/expenses of that individual governmental or enterprise fund are at least 10% of the corresponding total for all funds of that category or type, and
- b. The same element of the individual governmental or enterprise fund that met the 10% test is at least 5% of the corresponding total for all governmental and enterprise funds combined.
- c. In addition, any other governmental or enterprise fund that the Village believes is particularly important to financial statement users may be reported as a major fund.

Separate financial statements are provided for governmental funds, proprietary funds and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

The Village reports the following major governmental funds:

- General Fund - accounts for the village's primary operating activities. It is used to account for and report all financial resources except those accounted for and reported in another fund.
- Special Revenue Fund - Consolidated Services Fund - used to account for and report grants and local revenues committed to supporting expenditures for the program.

VILLAGE OF BAYSIDE

NOTE I - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)

B. GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS (cont.)

Fund Financial Statements (cont.)

The village reports the following major governmental funds: (cont.)

- Special Revenue Fund - Consolidated Dispatch - used to account for and report grants and local revenues legally restricted or committed to supporting expenditures for the program.
- Debt Service Fund - used to account for and report financial resources that are restricted, committed, or assigned to expenditure for the payment of general long-term debt principal, interest, and related costs, other than TID or enterprise debt.

The Village reports the following major enterprise funds:

- Sewer Utility - accounts for operations of the sewer system.

The Village reports the following nonmajor governmental funds:

- Special Revenue Funds - used to account for and report the proceeds of specific revenue sources that are restricted or committed to expenditures for specified purposes (other than debt service or capital projects).

Stormwater

Records Management System

- Capital Projects Funds - used to account for and report financial resources that are restricted, committed, or assigned to expenditure for capital outlays, including the acquisition or construction of capital facilities and other capital assets.

Capital Projects Funds - General Capital Projects, Police Capital Projects, Capital Projects Basin, Dispatch Capital Projects, Records Management System Capital Projects

In addition, the Village reports the following fund types:

- Agency Funds - used to account for and report assets held by the Village in a trustee capacity or as an agent for individuals, private organizations, and/or other governmental units.

Tax collection fund
Special Assessment B Bonds

VILLAGE OF BAYSIDE

NOTES TO FINANCIAL STATEMENTS As of and for the Year Ended December 31, 2013

NOTE I - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)

C. MEASUREMENT FOCUS, BASIS OF ACCOUNTING, AND FINANCIAL STATEMENT PRESENTATION

Government-Wide Financial Statements

The government-wide statement of net position and statement of activities are reported using the economic resources measurement focus and the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recorded when the liability is incurred or economic asset used. Revenues, expenses, gains, losses, assets, and liabilities resulting from exchange and exchange-like transactions are recognized when the exchange takes place. Property taxes are recognized as revenues in the year for which they are levied. Taxes receivable for the following year are recorded as receivables and unearned revenue. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider are met. Special assessments are recorded as revenue when earned. Unbilled receivables are recorded as revenues when services are provided.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements.

Fund Financial Statements

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recorded when they are both measurable and available. Available means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. For this purpose, the Village considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures are recorded when the related fund liability is incurred, except for unmatured interest on long-term debt, claims, judgments, compensated absences, and pension expenditures, which are recorded as a fund liability when expected to be paid with expendable available financial resources.

Property taxes are recorded in the year levied as receivables and unearned revenues. They are recognized as revenues in the succeeding year when services financed by the levy are being provided.

Intergovernmental aids and grants are recognized as revenues in the period the Village is entitled the resources and the amounts are available. Amounts owed to the Village which are not available are recorded as receivables and unavailable revenues. Amounts received before eligibility requirements (excluding time) are met are recorded as liabilities. Amounts received in advance of meeting time requirements are recorded as deferred inflows.

Revenues susceptible to accrual include property taxes, miscellaneous taxes, public charges for services, special assessments and interest. Other general revenues such as fines and forfeitures, inspection fees, recreation fees, and miscellaneous revenues are recognized when received in cash or when measurable and available under the criteria described above.

Proprietary and fiduciary fund financial statements (other than agency funds) are reported using the economic resources measurement focus and the accrual basis of accounting, as described previously in this note. Agency funds follow the accrual basis of accounting, and do not have a measurement focus.

VILLAGE OF BAYSIDE

NOTES TO FINANCIAL STATEMENTS
As of and for the Year Ended December 31, 2013

NOTE I - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)

C. MEASUREMENT FOCUS, BASIS OF ACCOUNTING, AND FINANCIAL STATEMENT PRESENTATION (cont.)

Fund Financial Statements (cont.)

The proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the sewer utility are charges to customers for sales and services. Special assessments are recorded as receivables and contribution revenue when levied. Operating expenses for proprietary funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

All Financial Statements

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures/expenses during the reporting period. Actual results could differ from those estimates.

D. ASSETS, DEFERRED OUTFLOWS OF RESOURCES, LIABILITIES, DEFERRED INFLOWS OF RESOURCES, AND NET POSITION OR EQUITY

1. Deposits and Investments

For purposes of the statement of cash flows, the Village considers all highly liquid investments with an initial maturity of three months or less when acquired to be cash equivalents.

Investment of Village funds is restricted by Wisconsin state statutes. Available investments are limited to:

- a. Time deposits in any credit union, bank, savings bank or trust company maturing in three years or less.
- b. Bonds or securities of any county, city, drainage district, technical college district, village, town, or school district of the state. Also, bonds issued by a local exposition district, a local professional baseball park district, a local professional football stadium district, a local cultural arts district, the University of Wisconsin Hospitals and Clinics Authority, or the Wisconsin Aerospace Authority.
- c. Bonds or securities issued or guaranteed by the federal government.
- d. The local government investment pool.
- e. Any security maturing in seven years or less and having the highest or second highest rating category of a nationally recognized rating agency.

VILLAGE OF BAYSIDE

NOTES TO FINANCIAL STATEMENTS As of and for the Year Ended December 31, 2013

NOTE I - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)

D. ASSETS, DEFERRED OUTFLOWS OF RESOURCES, LIABILITIES, DEFERRED INFLOWS OF RESOURCES, AND NET POSITION OR EQUITY (cont.)

1. Deposits and Investments (cont.)

- f. Securities of an open-end management investment company or investment trust, subject to various conditions and investment options.
- g. Repurchase agreements with public depositories, with certain conditions.

The Village has adopted an investment policy. That policy follows the state statute for allowable investments. In addition the village's policy states that the village will minimize both credit and interest rate risk. Credit risk is the risk of loss due to the failure of the security issuer or backer whereas interest rate risk is the risk that market value of securities in the portfolio will fail due to changes in market interest rates.

No policy exists for the following risks:
Investments highly sensitive to interest rate changes

The Village's investment policy regarding custodial credit risk requires the Village to maintain collateral agreements for 105% of the balance that exceeds the FDIC and State Deposit Guarantee Insurance, however, there are times during the year when the Village is not in compliance with this policy. The Village's investment policy does not address credit risk, interest rate risk, or concentration of credit risk.

Investments are stated at fair value, which is the amount at which an investment could be exchanged in a current transaction between willing parties. Fair values are based on quoted market prices. No investments are reported at amortized cost. Adjustments necessary to record investments at fair value are recorded in the operating statement as increases or decreases in investment income. Investment income on commingled investments of municipal accounting funds is allocated based on average balances. The difference between the bank statement balance and carrying value is due to outstanding checks and/or deposits in transit.

The Wisconsin Local Government Investment Pool (LGIP) is part of the State Investment Fund (SIF), and is managed by the State of Wisconsin Investment Board. The SIF is not registered with the Securities and Exchange Commission, but operates under the statutory authority of Wisconsin Chapter 25. The SIF reports the fair value of its underlying assets annually. Participants in the LGIP have the right to withdraw their funds in total on one day's notice. At December 31, 2013, the fair value of the Village's share of the LGIP's assets was substantially equal to the amount as reported in these statements.

See Note III. A. for further information.

VILLAGE OF BAYSIDE

NOTES TO FINANCIAL STATEMENTS
As of and for the Year Ended December 31, 2013

NOTE I - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)

D. ASSETS, DEFERRED OUTFLOWS OF RESOURCES, LIABILITIES, DEFERRED INFLOWS OF RESOURCES, AND NET POSITION OR EQUITY (cont.)

2. Receivables

Property taxes are levied in December on the assessed value as of the prior January 1. In addition to property taxes for the Village, taxes are collected for and remitted to the state and county governments as well as the local school district and technical college district. Taxes for all state and local governmental units billed in the current year for the succeeding year are reflected as receivables and due to other taxing units on the accompanying statement of assets and liabilities - agency funds.

Property tax calendar - 2013 tax roll:

Lien date and levy date	December 2013
Tax bills mailed	December 2013
Payment in full, or	January 31, 2014
First installment due	January 31, 2014
Second installment due	March 31, 2014
Third installment due	May 31, 2014
Personal property taxes in full	January 31, 2014
Tax sale - 2013 delinquent real estate taxes	October 2016

Delinquent real estate taxes as of July 31 are paid in full by the county, which assumes the collection thereof. No provision for uncollectible accounts receivable has been made for the sewer utility because they have the right by law to place substantially all delinquent bills on the tax roll, and other delinquent bills are generally not significant.

During the course of operations, transactions occur between individual funds that may result in amounts owed between funds. Short-term interfund loans are reported as "due to and from other funds." Long-term interfund loans (noncurrent portion) are reported as "advances from and to other funds." Interfund receivables and payables between funds within governmental activities are eliminated in the statement of net position. Any residual balances outstanding between the governmental activities and business-type activities are reported in the governmental-wide financial statements as internal balances.

3. Prepaid Items

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements.

4. Restricted Assets

Mandatory segregations of assets are presented as restricted assets. Such segregations are required by bond agreements and other external parties. Current liabilities payable from these restricted assets are so classified. The excess of restricted assets over current liabilities payable from restricted assets will be used first for retirement of related long-term debt. The remainder, if generated from earnings, is shown as restricted net position.

NOTE I - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)

D. ASSETS, DEFERRED OUTFLOWS OF RESOURCES, LIABILITIES, DEFERRED INFLOWS OF RESOURCES, AND NET POSITION OR EQUITY (cont.)

5. Capital Assets

Government-Wide Statements

Capital assets, which include property, plant and equipment, are reported in the government-wide financial statements. Capital assets are defined by the government as assets with an initial cost of more than \$5,000 for general capital assets and \$5,000 for infrastructure assets, and an estimated useful life in excess of 1 year. All capital assets are valued at historical cost, or estimated historical cost if actual amounts are unavailable. Donated capital assets are recorded at their estimated fair value at the date of donation.

Additions to and replacements of capital assets of business-type activities are recorded at original cost, which includes material, labor, overhead, and an allowance for the cost of funds used during construction when significant. For tax-exempt debt, the amount of interest capitalized equals the interest expense incurred during construction netted against any interest revenue from temporary investment of borrowed fund proceeds. No interest was capitalized during the current year. The cost of renewals and betterments relating to retirement units is added to plant accounts. The cost of property replaced, retired or otherwise disposed of, is deducted from plant accounts and, generally, together with removal costs less salvage, is charged to accumulated depreciation.

Depreciation and amortization of all exhaustible capital assets is recorded as an allocated expense in the statement of activities, with accumulated depreciation and amortization reflected in the statement of net position. Depreciation and amortization is provided over the assets' estimated useful lives using the straight-line method. The range of estimated useful lives by type of asset is as follows:

Buildings	20-50	Years
Land Improvements	15-40	Years
Machinery and Equipment	5-20	Years
Utility System	15-40	Years
Infrastructure	15-40	Years
Intangible - Software	5-10	Years

Fund Financial Statements

In the fund financial statements, capital assets used in governmental fund operations are accounted for as capital outlay expenditures of the governmental fund upon acquisition. Capital assets used in proprietary fund operations are accounted for the same way as in the government-wide statements.

6. Deferred Outflows of Resources

A deferred outflow of resources represents a consumption of net position that applies to a future period and will not be recognized as an outflow of resources (expense/expenditure) until that future time.

VILLAGE OF BAYSIDE

NOTES TO FINANCIAL STATEMENTS As of and for the Year Ended December 31, 2013

NOTE I - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)

D. ASSETS, DEFERRED OUTFLOWS OF RESOURCES, LIABILITIES, DEFERRED INFLOWS OF RESOURCES, AND NET POSITION OR EQUITY (cont.)

7. Compensated Absences

It is the Village's policy to permit employees to accumulate earned but unused sick leave benefits in accordance with bargaining unit agreements. All sick leave is accrued when incurred in the government-wide financial statements. A liability for these amounts is reported in the governmental funds in the fund financial statements only if they have matured, for example, as a result of employee resignations and retirements.

The Village provides postemployment health insurance benefits for all eligible employees. Eligibility is based on years of service and Wisconsin Retirement System participation. The benefits are based on contractual agreements with the employee groups, local ordinances, or employee benefit policies. Employees may convert 40% of accumulated sick leave to pay for health care premiums. The cost of those premiums is recognized as an expenditure as the premiums are paid. The entire cost is paid by the Village. Funding for these costs is provided out of the current operating budget of the general fund. The contributions are financed on a pay as you go basis. Total expenditures for such premiums during the year were \$-0-. The number of participants currently eligible to receive benefits is 42. The total amount outstanding at year end to be paid in the future is \$114,092 and is included in the government-wide statement of net position.

Payments for vacation and sick leave will be made at rates in effect when the benefits are used. Accumulated vacation and sick leave liabilities at December 31, 2013 are determined on the basis of current salary rates and include salary related payments.

8. Long-Term Obligations/Conduit Debt

All long-term obligations to be repaid from governmental and business-type resources are reported as liabilities in the government-wide statements. The long-term obligations consist primarily of notes and bonds payable and accrued compensated absences.

Long-term obligations for governmental funds are not reported as liabilities in the fund financial statements. The face value of debts (plus any premiums) are reported as other financing sources and payments of principal and interest are reported as expenditures. The accounting in proprietary funds is the same as it is in the government-wide statements.

For the government-wide statements and proprietary fund statements, bond premiums and discounts are amortized over the life of the issue using the straight-line method. Gains or losses on prior refundings are amortized over the remaining life of the old debt, or the life of the new debt, whichever is shorter. The balance at year end for premiums/discounts is shown as an increase or decrease in the liability section of the statement of net position. The balance at year end for gains/losses is shown as a deferred outflow/inflow in the statement of net position.

VILLAGE OF BAYSIDE

NOTES TO FINANCIAL STATEMENTS
As of and for the Year Ended December 31, 2013

NOTE I - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)

D. ASSETS, DEFERRED OUTFLOWS OF RESOURCES, LIABILITIES, DEFERRED INFLOWS OF RESOURCES, AND NET POSITION OR EQUITY (cont.)

8. Long-Term Obligations/Conduit Debt (cont.)

The Village may approve the issuance of industrial revenue bonds (IRB) for the benefit of private business enterprises. IRB's are secured by mortgages or revenue agreements on the associated projects, and do not constitute indebtedness of the Village. Accordingly, the bonds are not reported as liabilities in the accompanying financial statements. There were no IRB's outstanding at year end.

9. Deferred Inflows of Resources

A deferred inflow of resources represents an acquisition of net position that applies to a future period and therefore will not be recognized as an inflow of resources (revenue) until that future time.

10. Equity Classifications

Government-Wide Statements

Equity is classified as net position and displayed in three components:

- a. Net investment in capital assets - Consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances (excluding unspent debt proceeds) of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.
- b. Restricted net position - Consists of net position with constraints placed on their use either by 1) external groups such as creditors, grantors, contributors, or laws or regulations of other governments or, 2) law through constitutional provisions or enabling legislation.
- c. Unrestricted net position - All other net positions that do not meet the definitions of "restricted" or "net investment in capital assets."

When both restricted and unrestricted resources are available for use, it is the Village's policy to use restricted resources first, then unrestricted resources as they are needed.

Fund Statements

Governmental fund equity is classified as fund balance and displayed as follows:

- a. Nonspendable - Includes fund balance amounts that cannot be spent either because they are not in spendable form or because legal or contractual requirements require them to be maintained intact.

VILLAGE OF BAYSIDE

NOTES TO FINANCIAL STATEMENTS
As of and for the Year Ended December 31, 2013

NOTE I - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)

D. ASSETS, DEFERRED OUTFLOWS OF RESOURCES, LIABILITIES, DEFERRED INFLOWS OF RESOURCES, AND NET POSITION OR EQUITY (cont.)

10. Equity Classifications (cont.)

Fund Statements (cont.)

- b. Restricted - Consists of fund balances with constraints placed on their use either by 1) external groups such as creditors, grantors, contributors, or laws or regulations of other governments or 2) law through constitutional provisions or enabling legislation.
- c. Committed - Includes fund balance amounts that are constrained for specific purposes that are internally imposed by the government through formal action of the highest level of decision making authority. Fund balance amounts are committed through a formal action (resolution) of the Village Board. This formal action must occur prior to the end of the reporting period, but the amount of the commitment, which will be subject to the constraints, may be determined in the subsequent period. Any changes to the constraints imposed require the same formal action of the Village Board that originally created the commitment.
- d. Assigned - Includes spendable fund balance amounts that are intended to be used for specific purposes that are not considered restricted or committed. Fund balance may be assigned through the following; 1) The Village has adopted a financial policy authorizing the Finance Committee to assign amounts for a specific purpose. 2) All remaining positive spendable amounts in governmental funds, other than the general fund, that are neither restricted nor committed. Assignments may take place after the end of the reporting period.
- e. Unassigned - Includes residual positive fund balance within the general fund which has not been classified within the other above mentioned categories. Unassigned fund balance may also include negative balances for any governmental fund if expenditures exceed amounts restricted, committed, or assigned for those purposes.

Proprietary fund equity is classified the same as in the government-wide statements.

The Village considers restricted amounts to be spent first when both restricted and unrestricted fund balance is available unless there are legal documents / contracts that prohibit doing this, such as in grant agreements requiring dollar for dollar spending. Additionally, the Village would first use committed, then assigned and lastly unassigned amounts of unrestricted fund balance when expenditures are made.

See Note III. H. for further information.

VILLAGE OF BAYSIDE

NOTES TO FINANCIAL STATEMENTS
As of and for the Year Ended December 31, 2013

NOTE II - STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY

A. EXCESS EXPENDITURES OVER APPROPRIATIONS

<u>Funds</u>	<u>Budgeted Expenditures</u>	<u>Actual Expenditures</u>	<u>Excess Expenditures Over Budget</u>
Capital Projects Funds	\$ 845,920	\$ 1,229,518	\$ 383,598

The village controls expenditures at the function level. Some individual departments experienced expenditures which exceeded appropriations. The detail of those items can be found in the village's year-end budget to actual reports.

B. LIMITATIONS ON THE VILLAGE'S TAX LEVY

Wisconsin law limits the Village's future tax levies. Generally the Village is limited to its prior tax levy dollar amount (excluding TIF Districts), increased by the greater of the percentage change in the Village's equalized value due to new construction or zero percent. Changes in debt service from one year to the next are generally exempt from this limit with certain exceptions. The Village is required to reduce its allowable levy by the estimated amount of fee revenue it collects for certain services, if those services were funded in 2013 by the property tax levy. Levies can be increased above the allowable limits if the amount is approved by referendum.

VILLAGE OF BAYSIDE

NOTES TO FINANCIAL STATEMENTS
As of and for the Year Ended December 31, 2013

NOTE III - DETAILED NOTES ON ALL FUNDS

A. DEPOSITS AND INVESTMENTS

The Village's deposits and investments at year end were comprised of the following:

	Carrying Value	Statement Balances	Associated Risks
Deposits	\$ 1,455,825	\$ 1,050,888	Custodial Credit Risk
LGIP	14	14	Credit Risk
US agencies - implicity guaranteed	741,872	741,872	Custodial Credit Risk, Credit and Interest Rate Risk
US treasuries	414,048	414,048	Custodial Credit Risk, Interest Rate Risk
Corporate Bonds	1,599,369	1,599,369	Custodial Credit Risk, Credit and Interest Rate Risk
Municipal Bonds	188,982	188,982	Custodial Credit Risk, Credit and Interest Rate Risk
Money Market Mutual Fund	8,390,335	8,390,335	Credit and Interest Rate Risk
Petty cash	500	-	N/A
Total Deposits and Investments	<u>\$ 12,790,945</u>	<u>\$ 12,385,508</u>	
Reconciliation to financial statements			
Per statement of net position			
Unrestricted cash and investments	\$ 2,366,697		
Restricted cash and investments	49,092		
Per statement of assets and liabilities - agency funds	10,375,156		
Total Deposits and Investments	<u>\$ 12,790,945</u>		

Deposits in each local and area bank are insured by the FDIC in the amount of \$250,000 for time and savings accounts (including NOW accounts) and \$250,000 for demand deposit accounts (interest-bearing and noninterest-bearing). In addition, if deposits are held in an institution outside of the state in which the government is located, insured amounts are further limited to a total of \$250,000 for the combined amount of all deposit accounts.

Bank accounts are also insured by the State Deposit Guarantee Fund in the amount of \$400,000. However, due to the nature of this fund, recovery of material principal losses may not be significant to individual municipalities. This coverage has not been considered in computing custodial credit risk.

VILLAGE OF BAYSIDE

NOTE III - DETAILED NOTES ON ALL FUNDS (cont.)

A. DEPOSITS AND INVESTMENTS (cont.)

Custodial Credit Risk

Deposits

Custodial credit risk is the risk that in the event of a financial institution failure, the Village's deposits may not be returned to the Village.

As of December 31, 2013, \$320,101 of the Village's total bank balances were exposed to custodial credit risk as follows:

Uninsured and uncollateralized	\$ <u>320,101</u>
Total	\$ <u><u>320,101</u></u>

Investments

For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the Village will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party.

As of December 31, 2013, the Village's investments were exposed to custodial credit risk as follows:

<u>US Agencies - implicitly guaranteed</u>	
Neither insured nor registered and held by counterparty	\$ <u><u>741,872</u></u>
<u>US & Foreign Corporate Bonds</u>	
Neither insured nor registered and held by counterparty	\$ <u><u>1,599,369</u></u>
<u>Municipal Bonds</u>	
Neither insured nor registered and held by counterparty	\$ <u><u>188,982</u></u>

VILLAGE OF BAYSIDE

As of and for the Year Ended December 31, 2013

NOTE III - DETAILED NOTES ON ALL FUNDS (cont.)

A. DEPOSITS AND INVESTMENTS (cont.)

Credit Risk

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations.

As of December 31, 2013, the Village's investments were rated as follows:

Investment Type	Moody's Investors Services
Money Market Mutual Funds	AAA
Corporate Bonds	BAA1 to AAA
US agencies - implicitly guaranteed	AAA
Municipal Bonds	AA2

The Village also held investments in the following external pools which are not rated:

Wisconsin Local Government Investment Pool

Interest Rate Risk

Interest rate risk is the risk that changes in interest rates will adversely affect the value of an investment.

As of December 31, 2013, the Village's investments were as follows:

Investment Type	Fair Value	Maturity (In Months)			
		Less than 1 year	1 - 5 years	5 - 10 years	More than 10 years
US agencies (implicitly guaranteed)	\$ 741,872	\$ 190,178	\$ 395,013	\$ 156,680	\$ -
US treasuries	414,048	35,118	378,930	-	-
Corporate Bonds	1,599,369	385,739	1,213,630	-	-
Municipal Bonds	<u>188,982</u>	<u>85,491</u>	<u>103,492</u>	-	-
Totals	<u>\$ 2,944,271</u>	<u>\$ 696,526</u>	<u>\$ 2,091,065</u>	<u>\$ 156,680</u>	<u>\$ -</u>

Investment Type	Fair Value	Weighted Average Maturity
Money Market Mutual Fund	<u>\$ 8,390,335</u>	30

See Note I.D.1. for further information on deposit and investment policies.

VILLAGE OF BAYSIDE

NOTES TO FINANCIAL STATEMENTS As of and for the Year Ended December 31, 2013

NOTE III - DETAILED NOTES ON ALL FUNDS (cont.)

B. RECEIVABLES

All receivables on the balance sheet are expected to be collected within one year, except for delinquent personal property taxes of \$218, the North Shore Fire Department receivable, of which \$1,435,000 is not expected to be collected within one year, the Village of River Hills receivable, of which \$260,000 is not expected to be collected within one year, and Village of Fox Point receivable, of which \$215,000 is not expected to be collected within one year.

Governmental funds report *unavailable or unearned revenue* in connection with receivables for revenues that are not considered to be available to liquidate liabilities of the current period. Property taxes levied for the subsequent year are not earned and cannot be used to liquidate liabilities of the current period. Governmental funds also defer revenue recognition in connection with resources that have been received, but not yet earned. At the end of the current fiscal year, the various components of *unavailable revenue* and *unearned revenue* reported in the governmental funds were as follows:

	<u>Unearned</u>	<u>Unavailable</u>
Property taxes receivable for subsequent year	\$ 4,372,779	\$ -
North Shore Fire Department	-	1,590,000
Village of River Hills	-	275,000
Village of Fox Point	-	225,000
Stormwater User Fees	244,628	-
Capital Leases	29,176	-
 Total Unearned/Unavailable Revenue for Governmental Funds	 \$ 4,646,583	 \$ 2,090,000

C. RESTRICTED ASSETS

The following represent the balances of the restricted assets:

Following is a list of restricted assets at December 31, 2013:

	<u>Restricted Assets</u>	<u>Liabilities Payable from Restricted Assets</u>	<u>Restricted Net Position</u>
Bond redemption account	\$ 49,092	\$ 3,353	\$ 45,739
 Total	 \$ 49,092	 \$ 3,353	 \$ 45,739

D. CAPITAL ASSETS (cont.)

	Beginning Balance	Additions	Deletions	Ending Balance
Business-type Activities				
Capital assets not being depreciation				
Construction in progress	\$ 10,440	\$ -	\$ -	\$ 10,440
Total Capital Assets Not Being Depreciation	10,440	-	-	10,440
Capital assets being depreciated				
Infrastructure	\$ 7,252,514	\$ -	\$ 4,326	\$ 7,248,188
Equipment	225,573	-	23,220	202,353
Total Capital Assets Being Depreciated	7,478,087	-	27,546	7,450,541
Total Capital Assets	7,488,527	-	27,546	7,460,981
Less: Accumulated depreciation for				
Infrastructure	(3,305,544)	(148,374)	1,990	(3,451,928)
Equipment	(73,486)	(5,039)	19,462	(48,985)
Total Accumulated Depreciation	(3,379,030)	(143,335)	21,452	(3,500,913)
Net Capital Assets Being Depreciated	4,099,057	(143,335)	6,094	3,949,628
Business-type Capital Assets, Net of Accumulated Depreciation	\$ 4,109,497	\$ (143,335)	\$ 6,094	\$ 3,960,068

Depreciation expense was charged to functions as follows:

Business-type Activities	
Sewer	\$ 149,428
Total Business-type Activities Depreciation Expense	\$ 149,428

Depreciation/amortization expense may be different from business-type activity capital asset additions because of joint metering, salvage, cost of removal, internal allocations, or costs associated with the disposal of assets.

VILLAGE OF BAYSIDE

NOTES TO FINANCIAL STATEMENTS
As of and for the Year Ended December 31, 2013

NOTE III - DETAILED NOTES ON ALL FUNDS (cont.)

E. INTERFUND TRANSFERS

The following is a schedule of interfund transfers:

<u>Fund Transferred To</u>	<u>Fund Transferred From</u>	<u>Amount</u>	<u>Principal Purpose</u>
General Fund	Stormwater - Special Revenue Fund	\$ 1,549	To consolidate the designated HRA funds into one designated HRA fund
Capital Projects	General Fund	70,459	To cover expenses for road construction and water system project
Debt Service Fund	General Fund	55,000	To fund debt service payments
Debt Service Fund	Stormwater - Special Revenue Fund	202,667	To cover debt service payments
Capital Projects	Consolidated Services - Special Revenue Fund	35,000	To fund certain shared expenditures
General Fund	Sewer Fund	8,126	To consolidate the designated HRA funds into one designated HRA fund
Records Management System	Capital Projects	50,000	To cover Bayside's portion of the records management system
General Fund	Consolidated Services - Special Revenue Fund	10,000	To undesignate Library Study funds no longer needed
Debt Service Fund	Consolidated Services - Special Revenue Fund	<u>7,615</u>	To cover debt service payments
Total - Fund Financial Statements		440,416	
Less: Fund eliminations		<u>(432,290)</u>	
Total Transfers - Government-Wide Statement of Activities		<u><u>\$ 8,126</u></u>	

Generally, transfers are used to (1) move revenues from the fund that collects them to the fund that the budget requires to expend them, (2) move receipts restricted to debt service from the funds collecting the receipts to the debt service fund, and (3) use unrestricted revenues collected in the general fund to finance various programs accounted for in other funds in accordance with budgetary authorizations.

For the statement of activities, interfund transfers within the governmental activities or business-type activities are netted and eliminated.

Bonds and Notes Payable					
General obligation debt	\$ 1,586,304	\$ -	\$ 138,246	\$ 1,448,058	\$ 149,083
Revenue bonds	917,609	-	67,024	850,585	68,609
Add/(Subtract) Deferred					
Amounts for	-	-	-	-	-
(Discounts)/Premiums	11,278	-	1,581	9,697	-
Sub-totals	<u>2,515,191</u>	<u>-</u>	<u>206,851</u>	<u>2,308,340</u>	<u>217,692</u>
Total Business-type					
Activities Long-Term					
Liabilities	<u>\$ 2,515,191</u>	<u>\$ -</u>	<u>\$ 206,851</u>	<u>\$ 2,308,340</u>	<u>\$ 217,692</u>

In accordance with Wisconsin Statutes, total general obligation indebtedness of the Village may not exceed 5% of the equalized value of taxable property within the Village's jurisdiction. The debt limit as of December 31, 2013, was \$28,462,040. Total general obligation debt outstanding at year end was \$8,978,235.

General Obligation Debt

All general obligation notes and bonds payable are backed by the full faith and credit of the Village. Notes and bonds in the governmental funds will be retired by future property tax levies accumulated by the debt service fund. Business-type activities debt is payable by revenues from user fees of those funds or, if the revenues are not sufficient, by future tax levies.

Revenue Debt

Business-type activities revenue bonds are payable only from revenues derived from the operation of the Sewer.

The Village has pledged future revenues, net of specified operating expenses, to repay \$1.0 million in revenue bonds issued in 2004. Proceeds from the bonds provided financing for the Village's Sewer System. The bonds are payable solely from revenues and are payable through 2024. Annual principal and interest payments on the bonds are expected to require 28% of net revenues. The total principal and interest remaining to be paid on the bonds is \$965,922. Principal and interest paid for the current year and total customer net revenues were \$87,933 and \$314,584, respectively.

Revenue debt payable at December 31, 2013, consists of the following:

Business-type Activities Revenue Debt

Sewer Utility	Date of Issue	Final Maturity	Interest Rates	Original Indebtedness	Balance December 31, 2013
Revenue Bond	8/25/2004	5/1/2024	2.365%	\$ 1,342,169	<u>\$ 850,585</u>

Refer to Note III. G.

Other Debt Information

Estimated payments of compensated absences are not included in the debt service requirement schedules. The compensated absences liability attributable to governmental activities will be liquidated primarily by the general fund.

A statutory mortgage lien upon the sewer fund's system and any additions, improvements, and extensions thereto is created by Section 66.066 of the Wisconsin Statutes as provided for in the ordinances creating the revenue bond issue. The sewer fund's system and the earnings of the system remain subject to the lien until payment in full of principal and interest on the bonds.

NOTE IV - OTHER INFORMATION

A. EMPLOYEES' RETIREMENT SYSTEM

All eligible Village employees participate in the Wisconsin Retirement System (WRS), a cost-sharing, multiple-employer, defined benefit, public employee retirement system. All employees, initially employed by a participating WRS employer prior to July 1, 2011, expected to work over 600 hours a year and expected to be employed for at least one year from employee's date of hire are eligible to participate in the WRS. All employees, initially employed by a participating WRS employer on or after July 1, 2011, and expected to work at least 1,200 hours a year and expected to be employed for at least one year from employee's date of hire are eligible to participate in the WRS.

Effective the first day of the first pay period on or after June 29, 2011 the employee required contribution was change to one-half of the actuarially determined contribution rate for General category employees, and Executives and Elected Officials. Required contributions for protective employees are the same as general employees. Employers are required to contribute the remainder of the actuarially determined contribution rate. The employer may not pay the employee required contribution unless provided for by an existing collective bargaining agreement. Contribution rates for December 31, 2013 are:

	<u>Employee</u>	<u>Employer</u>
General	6.65%	6.65%
Executives and Elected Officials	7.00%	7.00%
Protective with Social Security	6.65%	9.75%
Protective without Social Security	6.65%	12.35%

VILLAGE OF BAYSIDE

NOTES TO FINANCIAL STATEMENTS As of and for the Year Ended December 31, 2013

NOTE IV - OTHER INFORMATION (cont.)

A. EMPLOYEES' RETIREMENT SYSTEM (cont.)

The payroll for Village employees covered by the WRS for the year ended December 31, 2013 was \$2,793,917; the employer's total payroll was \$3,042,022. The total required contribution for the year ended December 31, 2013 was \$426,190 or 15.3% of covered payroll. Of this amount, 100% was contributed for the current year. Total contributions for the years ending 2012 and 2011 were \$363,505 and \$285,502, respectively, equal to the required contributions for each year.

Employees who retire at or after age 65 (62 for elected officials and 54 for protective occupation employees with less than 25 years of service, 53 for protective occupation employees with more than 25 years of service) are entitled to receive a retirement benefit. Employees may retire at age 55 (50 for protective occupation employees) and receive actuarially reduced benefits. The factors influencing the benefit are: (1) final average earnings, (2) years of creditable service, and (3) a formula factor. A final average earnings is the average of the employee's three highest years' earnings. Employees terminating covered employment and submitting application before becoming eligible for a retirement benefit may withdraw their contributions and, by doing so, forfeit all rights to any subsequent benefit. For employees beginning participation on or after January 1, 1990, and no longer actively employed on or after April 24, 1998, creditable service in each of five years is required for eligibility for a retirement annuity. Participants employed prior to 1990 and on or after April 24, 1998 and prior to July 1, 2011 are immediately vested. Participants who initially became WRS eligible on or after July 1, 2011 must have five years of creditable service to be vested.

The WRS also provides death and disability benefits for employees. Eligibility and the amount of all benefits are determined under Chapter 40 of Wisconsin Statutes.

The WRS issues an annual financial report which may be obtained by writing to the Department of Employee Trust Funds, P.O. Box 7931, Madison, WI 53707-7931.

As of December 31, 2013 there was no pension related debt for the Village.

B. RISK MANAGEMENT

The Village is exposed to various risks of loss related to torts; theft of, damage to, or destruction of assets; errors and omissions; workers compensation; and health care of its employees. All of these risks are covered through the purchase of commercial insurance, with minimal deductibles. Settled claims have not exceeded the commercial coverage in any of the past three years. There were no significant reductions in coverage compared to the prior year.

C. COMMITMENTS AND CONTINGENCIES

Claims and judgments are recorded as liabilities if all the conditions of Governmental Accounting Standards Board pronouncements are met. The liability and expenditure for claims and judgments are only reported in governmental funds if it has matured. Claims and judgments are recorded in the government-wide statements and proprietary funds as expenses when the related liabilities are incurred.

VILLAGE OF BAYSIDE

NOTES TO FINANCIAL STATEMENTS
As of and for the Year Ended December 31, 2013

NOTE IV - OTHER INFORMATION (cont.)

C. COMMITMENTS AND CONTINGENCIES (cont.)

From time to time, the Village is party to various pending claims and legal proceedings. Although the outcome of such matters cannot be forecasted with certainty, it is the opinion of management and the Village attorney that the likelihood is remote that any such claims or proceedings will have a material adverse effect on the Village's financial position or results of operations.

The Village has received federal and state grants for specific purposes that are subject to review and audit by the grantor agencies. Such audits could lead to requests for reimbursements to the grantor agency for expenditures disallowed under terms of the grants. Management believes such disallowances, if any, would be immaterial.

D. JOINT VENTURES

North Shore Fire Department

By agreement dated December 30, 1994, the North Shore Fire Department (NSFD) was created. The NSFD, which provides a unified integrated fire and emergency medical service, began operations on January 1, 1996. The NSFD was created pursuant to the provisions of Wisconsin Statutes 61.65 and 66.30. Participants are the City of Glendale, Village of Fox Point, Village of Shorewood, Village of Brown Deer, Village of River Hills, Village Whitefish Bay and Village of Bayside. The NSFD is operated by a Board of Directors consisting of seven members, which includes the mayor and village presidents of each participating municipality. The affirmative vote of majority of the members of the Board of Directors is required on most matters. Also established by the agreement is a Joint Fire Commission that has the powers related to appointments, promotions, suspensions, removals, dismissals, reemployment, compensation, rest days, etc.

The powers of the Board of Directors include authorizing repair, maintenance, and renewal of physical assets and recommending adoptions of the department's budget. The capital and operating budget of the department must receive approval of at least five of seven participating municipalities.

Each participating municipality's annual financial contribution to the NSFD's operations and capital budget shall be based on its prorated share of population, equalized valuation and usage of all the municipalities. The village accounts for its share of the operations of the NSFD in the Consolidated Services fund. The village made a payment totaling \$794,815 to NSFD for 2013. The village believes that the fire department will continue to provide services in the future at similar rates. Complete 2013 financial information is available from NSFD at 4401 West River Lane, Brown Deer, WI 53223. The village does not report an equity interest in this joint venture.

NOTE IV - OTHER INFORMATION (cont.)

D. JOINT VENTURES (cont.)

North Shore Library System

The City of Glendale and the Villages of Fox Point, River Hills, and Bayside operate the North Shore Library under a Joint Library Agreement dated January 1, 1985. Under the joint agreement, a Joint Library Board is created to operate the North Shore Library. The Joint Board is composed of ten members: five members from Glendale, two members each from Fox Point and Bayside, one member from River Hills, and the Superintendent of Schools for Nicolet School District. The Joint Library Board has the powers to repair, maintain, and renew physical assets for the library and to prepare and adopt a budget for the library's operating expenses and a budget for the library's capital improvement expenses. The operating budget must be approved by at least three of the four municipalities. In addition, the Joint Library Board has the power to appoint the Library Director and such other assistants and employees as it deems necessary. Operating and capital expenses are shared proportionately based upon population estimates published in October.

The village made payments totaling \$143,463 to the Library in 2013. The village accounts for its share of the operations of the North Shore Library in the Library special revenue fund. The village believes that the library will continue to provide services in the future at similar rates. Complete 2013 financial information is available from the Village of Fox Point. The village does not report an equity interest in this joint venture.

VILLAGE OF BAYSIDE

NOTES TO FINANCIAL STATEMENTS
As of and for the Year Ended December 31, 2013

NOTE IV - OTHER INFORMATION (cont.)

D. JOINT VENTURES (cont.)

Dispatch Services

The Village of Fox Point, River Hills, and Bayside jointly operate a dispatch service under a joint service agreement. Under the joint agreement, the Village of Bayside provides dispatch services to the municipalities. The cost of these services is shared between the communities as agreed upon in the individual agreements. A separate board has not been established to govern the dispatch service activities. Changes to the agreements and to the services provided require the approval of all three Village boards. Complete 2013 financial information is provided in these statements and accompanying footnotes. The village does not report an equity interest in this joint venture.

During 2011, Village of Brown Deer and North Shore Public Safety Communications Commission ("Commission") also entered into an intergovernmental cooperation agreement with the Village of Bayside. Effective January 1, 2012, joint operating costs of the dispatch services are shared between Village of Fox Point, River Hills, Bayside, Brown Deer, and the Commission as agreed upon in the individual agreements. During 2012, the village received approximately \$246,000 from Fox Point, \$978,236 from the Commission, \$344,306 from Brown Deer, and \$92,526 from River Hills. The village's contribution was approximately \$246,846 and was funded through tax levy.

To accommodate expansion of the dispatch operation, Bayside began construction of the Bayside Communications Center. Capital costs of the expansion are financed by each municipality as agreed upon in the individual agreements. During 2012, the village received the remaining fifty percent of the capital contributions from Village of Brown Deer and the Commission in the amount of \$188,543 and \$588,956, respectively. In 2011 to finance Fox Point, River Hills, and Bayside contributions, the Village of Bayside issued general obligation corporate purpose bonds and loaned \$245,000 of the proceeds to the Village of Fox Point and \$305,000 to the Village of River Hills. On December 31, 2013 the village has reported a \$500,000 contract receivable (and deferred revenue in the fund statements) representing amounts due from Fox Point and River Hills.

E. OTHER POSTEMPLOYMENT BENEFITS

The Village administers a single-employer defined benefit healthcare plan. The plan provides for eligible retirees and their spouses through the Village's which covers both active and retired members. Benefit provisions are established through collective bargaining agreements and state that eligible retirees and their spouses at established contribution rates.

Contribution requirements are established through collective bargaining agreements and may be amended only through negotiations between the Village and the union. Administrative costs of the plan are financed through investment earnings.

The Village's annual other postemployment benefit (OPEB) cost (expense) is calculated based on the annual required contribution of the employer (ARC). The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years. The following table shows the components of the Village's annual OPEB cost for the year, the amount actually contributed to plan, and changes in the Village's net OPEB obligation to the Retiree Health Plan:

VILLAGE OF BAYSIDE

NOTES TO FINANCIAL STATEMENTS As of and for the Year Ended December 31, 2013

NOTE IV - OTHER INFORMATION (cont.)

E. OTHER POSTEMPLOYMENT BENEFITS (cont.)

Annual required contribution	\$	27,789
Interest on net OPEB obligation		3,840
Adjustment to annual required contribution		<u>(11,266)</u>
Annual OPEB cost		20,363
Contributions made		<u>-</u>
Increase in net OPEB obligation		20,363
Net OPEB Obligation - Beginning of Year		<u>85,314</u>
Net OPEB Obligation - End of Year	\$	<u><u>105,677</u></u>

The Village's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the net OPEB obligation for 2013 were as follows:

<u>Fiscal Year Ended</u>	<u>Annual OPEB Cost</u>	<u>Percentage of Annual OPEB Cost Contributed</u>	<u>Net OPEB Obligation</u>
December 31, 2011	\$ 29,040	-%	\$ 56,829
December 31, 2012	28,485	-%	85,314
December 31, 2013	20,363	-%	105,677

The funded status of the plan as of January 1, 2009, the most recent actuarial valuation date, was as follows:

Actuarial accrued liability (AAL)	\$	271,906
Actuarial value of plan assets		<u>-</u>
Unfunded Actuarial Accrued Liability (UAAL)	\$	<u><u>271,906</u></u>
Funded ratio (actuarial value of plan assets/AAL)		-%
Covered payroll (active plan members)	\$	1,875,046
UAAL as a percentage of covered payroll		15%

VILLAGE OF BAYSIDE

NOTES TO FINANCIAL STATEMENTS As of and for the Year Ended December 31, 2013

NOTE IV - OTHER INFORMATION (cont.)

E. OTHER POSTEMPLOYMENT BENEFITS (cont.)

Actuarial valuations of an ongoing plan involve estimates for the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information following the notes to the financial statements, presents multiyear trend information that shows whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing benefit costs between the employer and plan members to that point. The methods and assumptions used include techniques that are designed to reduce short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

In the January 1, 2009 actuarial valuation, the frozen attained age actuarial cost method was used. The actuarial assumptions include a 5% investment rate of return and an annual healthcare cost trend rate of 10% initially, reduced by decrements to an ultimate rate of 5% after 10 years. Both rates include a 3% inflation assumption. The actuarial value of Retiree Health Plan assets was determined using techniques that spread the effects of short-term volatility in the market value of investments over a three-year period. The plan's unfunded actuarial accrued liability is being amortized as a level percentage of projected payroll on an open basis. The amortization period at December 31, 2013, was 30 years.

F. EFFECT OF NEW ACCOUNTING STANDARDS ON CURRENT-PERIOD FINANCIAL STATEMENTS

The Governmental Accounting Standards Board (GASB) has approved the following:

- Statement No. 67, *Financial Reporting for Pension Plans - an amendment of GASB Statement No. 25*
- Statement No. 68, *Accounting and Financial Reporting for Pensions - an amendment of GASB Statement No. 27*
- Statement No. 69, *Government Combinations and Disposals of Government Operations*
- Statement No. 70, *Accounting and Financial Reporting for Nonexchange Financial Guarantees*

When they become effective, application of these standards may restate portions of these financial statements.

VILLAGE OF BAYSIDE

NOTES TO FINANCIAL STATEMENTS
As of and for the Year Ended December 31, 2013

NOTE IV - OTHER INFORMATION (cont.)

G. CONTRACTS RECEIVABLE

In 2003 the village issued \$2.53 million General Obligation Fire Department Bonds and loaned the proceeds to the North Shore Fire Department. Each of the municipalities that participate in North Shore Fire Department, including the village, have formally pledged to finance the debt service payments on these bonds in accordance with cost sharing arrangements. Terms of the contract receivable are identical to the underlying bonds outstanding (See Note III.F.). In 2012 the Village refunded \$1.625 million of this debt with \$1.605 million of new General Obligation Fire Department Debt. On December 31, 2013 the village has reported a \$1,590,000 contract receivable (and deferred revenue in the fund statements) representing amounts due from the other participating municipalities.

OTHER POST EMPLOYMENT BENEFITS SCHEDULE OF FUNDING PROGRESS For the Year Ended December 31, 2013

Actuarial Valuation Date	Actuarial Value of Assets (a)	Actuarial Accrued Liability (AAL) - Projected Unit (b)	Unfunded AAL (UAAL) (b-a)	Funded Ratio (a/b)	Covered Payroll (c)	UAAL as a Percentage of Covered Payroll ((b-a)/c)
01/01/06	\$ -	\$ 2,202,400	\$ 2,202,400	0%	\$ 1,725,947	128%
01/01/09	-	271,906	271,906	0%	1,875,046	15%

The village is required to present the above information for the three most recent actuarial studies. The study completed as of January 1, 2009 was the second study performed for the village.

In 2009 the village switched health insurance plans resulting in elimination of the implicit rate subsidy.

VILLAGE OF BAYSIDE

NOTES TO REQUIRED SUPPLEMENTARY INFORMATION As of and for the Year Ended December 31, 2013

BUDGETARY INFORMATION

Budgetary information is derived from the annual operating budget and is presented using the same basis of accounting for each fund as described in Note I. C.

The budgeted amounts presented include any amendments made. The Village may authorize transfers of budgeted amounts within departments. Transfers between departments and changes to the overall budget must be approved by a two-thirds council action.

Appropriations lapse at year end unless specifically carried over. There were no carryovers to the following year. Budgets are adopted at the department level of expenditure.

EXCESS EXPENDITURES OVER APPROPRIATIONS

Excess expenditures over appropriations are as follows:

	<u>Final Budget</u>	<u>Expenditures</u>	<u>Excess</u>
<u>General Fund</u>			
Public works	\$ 773,530	\$ 777,414	\$ 3,884
<u>Special Revenue Fund - Consolidated Services</u>

STATISTICAL SECTION

STATISTICAL SECTION

This section of the Village of Bayside's comprehensive annual financial report presents detailed information as context for understanding the information in the financial statements, note disclosures and required supplementary information says about the Village's overall financial health

<u>Contents</u>	<u>Page</u>
Financial Trends These schedules contain trend information to help the reader understand how the Village's financial performances and well-being have changed over time.	83
Revenue Capacity These schedules contain information to help the reader assess the Village's most significant local revenue source, the property tax.	95
Debt These schedules present information to help the reader assess the affordability of the Village's current levels of outstanding debt and the ability to issue additional debt in the future.	100
Demographic and Economic Information These schedules offer demographic and economic indicators to help the reader understand the environment within which the Village's financial activities take place.	102
Operating Information These schedules contain services and infrastructure data to help the reader understand how the information in the Village's financial report relates to the services the Village provides and the activities performed. The Village of Bayside implemented GASB 34 in 2004; schedules presenting government-wide information include information beginning in 2004.	105
Sources Unless otherwise noted, the information in these schedules is derived from the audited comprehensive annual financial reports for the relevant year
