

Low to Medium by November 20

The preliminary engineering study for the next phase of municipal water has identified strong, medium, and low potential routes. View the maps to determine where your property stands.

[Low Potential Route Map](#)

[Medium Potential Route Map](#)

[Strong Potential Route Map](#)

Low and Medium Potential routes need additional properties to participate in order to make the project potentially feasible in those areas. The firm and hard deadline for these last sign ups is Thursday, November 20 at 4:30 pm. Without additional sign ups, the route status will not change and properties located on low and medium potential routes will not be eligible for this next phase of the project.

Have questions? [Email](#) or there will be meetings this coming week at Village Hall to review the preliminary engineering study and discuss the next steps moving forward. The [presentation and audio is also available online](#).

General Election Results

The November Election was held on Tuesday. Bayside's results are posted [here](#). Absentee ballots postmarked by November 4 and received on Friday, November 7 by 4:00 pm will be tallied by the Board of Canvassers on Friday. Thank you to all the poll workers for their patience and hard work throughout the day.

Weekly Highlights

There was a 73.07% voter turnout in Bayside in the Tuesday, November election.

Public meetings were held and attended at Village Hall for the next phase of municipal water.

Crews winterized and cleaned the Ellsworth Park Pavement for the winter season.

Plans were approved for exterior remodeling of the West Bank on Brown East Road.

Upcoming Events

Clean Up Day
November 15: 10 AM

Loose Leaf and Yard Waste Collection

Crews are continuing to work on leaf collection in the Village. Due to the large volume of leaves at the roadside, collections are taking longer than anticipated. This means your leaves may not be collected on the calendar-specified day. However, crews will continue work into next week until all quadrants have been collected. Thank you for your patience.

Yard waste will be collected beginning Monday, November 10 at 7 am. Have your materials out by this time to ensure collection. Remember that loose leaves placed in brown bags or reusable containers are collected during yard waste weeks.

Clean Up Day

The Fall Clean Up Day is just a little over a week away! Bring items to dispose of or recycle to the DCUS yard (enter off Fairy Chasm) on Saturday, November 15 between 10 am and 2 pm. Click [here](#) for more information about what will be accepted.

Remember that to participate you must bring a donation. Non-perishable food items for the Hunger Task Force and monetary donations for Ronald McDonald House Charities of Eastern Wisconsin will be collected.

[America Recycles Day](#) has been celebrated on November 15 every year since 1997 and is dedicated to encouraging Americans to recycle and to buy recycled products. Participate in Bayside's Clean Up Day on Saturday, November 15 to do your part!

Watch for Deer

With the white-tailed deer rut underway and firearm deer hunting commencing on November 22, motorists should be aware that deer will be more active, especially during the dawn and dusk hours. Motorists should slow down and scan for others if they happen to see a deer, as there may be more close behind. If a deer is struck by a motor vehicle we ask that you call 911 or the Bayside Police Department non-emergency number (414 351-8800) to report the crash. Once law
